

AMERICA'S MOST AFFORDABLE ALUMINUM STREET SIGNS

The street signs are made of high-quality cast and extruded aluminum for extra strength and durability. Powder-coat textured finish ensures a long life. Cast aluminum back plates for all residential traffic sign shapes can be bolted onto the pole or ordered as an integrated unit with the pole. All street signs are built to DOT Specifications. Custom Home's signs markers and mailboxes can be matched community wide: address plaques, mailboxes, street signs, community entrance signs, etc.

Direct In-ground Installation: A heavy-duty underground aluminum extension provides every street and community sign with a footing that won't rust or rot.
